

## Pool Permits

A swimming pool is defined as any structure intended for swimming, recreational bathing or wading that contains water over 24 inches deep.

Inground pools shall be completely enclosed by a fence at least 4 feet in height. Access gates shall open outward away from the pool and shall be self-closing and have a self-latching device. Zoning is a prior approval for all inground and above-ground pools and requires a survey.

In addition to the construction permit jacket, subcode cards must be included: Building with three copies of pool plans or brochure of above-ground pool, small construction form, Electrical along with all filter information. If a heater is being installed, then Plumbing also requires gas pipe drawing.
