

AM RADIO STATION – 590 AM

The Township of Clark operates an Informational/Emergency Radio Station at 590 on the AM radio band. This station operates through the OEM and on a daily basis will provide general township information such as traffic reports and other pertinent information. During a disaster or emergency situation this station will provide announcements such as school closings, travel information, and health and safety instructions. This AM radio station will be used in conjunction with our Cable TV 36 station to provide information to our citizens during any emergency situation. All residents are advised to have a battery powered radio with the 590 AM frequency on it in order to receive
