What Does Your Health Department Do?

Your local public health department protects and improves the health and well-being of your community, as well as the environmental resources upon which we all depend.

Since 1900, the average lifespan of U.S. residents has increased by more than 30 years, with 25 years of this gain attributable to advances in public health, such as:

- Vaccination
- Motor-vehicle safety
- Safer workplaces
- Control of infectious diseases
- Decline in deaths from coronary heart disease and stroke
- Safer and healthier foods
- Healthier mothers and babies
- Family planning
- Fluoridation of drinking water
- Recognition of tobacco use as a health hazard

Today, your local, county, regional, and state public health agencies continue to promote health and wellness across New Jersey.

Your health department:

- Protects you from health threats. Your health department works to prevent disease outbreaks and makes sure the water you drink, the food you eat, and the air you breathe are all safe. We are also ready to respond to any health emergency — be it bioterrorism, SARS, West Nile Virus, or a new environmental hazard.
- Educates you and your neighbors about health issues. Your health department provides you with information that helps you make healthy decisions, like exercising more, eating right, quitting smoking, and washing your hands to protect yourself from communicable diseases. During a public health emergency, we also provide important alerts and warnings to protect your health.
- Provides healthy solutions. Your health department offers the preventive care you need to avoid disease and maintain your health. We provide flu shots for the elderly and help mothers get prenatal care to give their babies a healthy start. We also help provide children with regular check-ups, immunizations, and good nutrition to help them grow and learn.
- Advances community health. Your health department takes part in developing new policies and standards that address existing and emerging challenges to your community's health while enforcing a range of laws to help keep you safe. We work through research and staff training to maintain expertise and deliver up-to-date, cutting-edge health programs.

Staffing & Human Resources Summary

Fiscal Year Summary	2017 data
Number of Individual Employees	1
Number of Individual Contract Staff	3
Number of Individual Volunteers	0
Number of Contract Organizations	0
Total Number of Full-Time Equivalent Human Resources Available	7
FTEs of Individual Employees	1
FTEs of Individual Contract Staff	3
FTEs of Individual Volunteers	0
FTEs of Contract Organizations	3

¹ Employees are individuals who are on the LHD's payroll and paid a set salary or hourly rate. This includes full-time, part-time, and casual/at-will/W-9 staff of the LHD.

¹ Contract staff are individual contractors or consultants who are not on the LHD's payroll, but who invoice or bill the LHD for services rendered on behalf of the LHD and are paid directly by the LHD as individuals (rather than as companies/organizations).

¹ Contract organizations are organizations that, under the terms of a contract, provide services on behalf of the LHD in exchange for payment, where the LHD pays the organization rather than directly compensating individual staff of the organization for their services.

Annual Financial Summary
